

Savanna Pinkoski

Mrs. Cindy Zain, Business,
Management, Marketing &
Technology teacher,
has selected

Savanna Pinkoski
as Outstanding Information
Technology student of the
3rd quarter for the 2012-2013
school year.

Savanna has an outstanding work ethic and is always working on something. When she is finished with her work in Information Technology, she is either working on other homework, studying for a test, studying for Business Professionals of America (BPA), or working on paperwork needed for her college applications and scholarships.

Savanna is very organized and is able to multitask effectively. She always finishes everything she starts and always makes sure everything is completed to perfection. Savanna is able to do very well in school and work two jobs as well.

Savanna joined BPA this year and was a member of the first place Web Site Design Team at regionals and first place Web Site Design Team at states. This is the first time that any Web Site Design Team from Sault Ste. Marie has won the state competition. She will be attending the National Conference in May 2013 in Orlando, Florida.

It is definitely my pleasure to name Savanna Pinkoski as my Outstanding Student of the Quarter in Information technology.

Congratulations Savanna
On being the Outstanding Student of the Quarter in
Information Technology!

Alyssa Holt

Mrs. Diane Harrington,
Business, Management,
Marketing &
Technology teacher, has
selected
Alyssa Holt
as Outstanding
Administrative Services
student of the
3rd quarter for the
2012-2013 school year.

Alyssa has been a four year student in Administrative Services and a four year member of Business Professionals of America (BPA). Alyssa has been a four time regional, three time state and a national winner in competitions. She was on our first place National Winning Administrative Support Team. Alyssa has also earned her Diplomat, Statesman and Ambassador Torch awards through BPA. This year she has served as our co-president in BPA.

Congratulations Alyssa
On being the Outstanding Student of the Quarter in
Administrative Services!

Megan Jean

Mrs. Jo Anne Lussier,
Business, Management,
Marketing and Technology
teacher in Marketing Sales &
Services, has selected
Megan Jean
as Outstanding Marketing
Sales & Services student of
the 3rd quarter for the 2012-
2013 school year.

Megan is a second year marketing student who has proven to be very dedicated and focused. Megan has taken the lead with our on-line store this year and has continued to bring her creative and artistic abilities to the forefront of the class. She was responsible for the new Fan T design this year and played an important role in our “bundle” promotions.

She has been called on to take a leadership role as a second year student. Megan never shies away from a challenge and has a great deal of determination. She has had to continue to challenge herself and try new things while still bringing the same commitment to excellence that she has always had. She has been a pleasure to have in the program for the past two years and I look forward to seeing what path she chooses in the future, as I know she will be successful in any field she picks.

Megan is a great asset to our program and to our Career Center.

Congratulations Megan
On being the Outstanding Student of the Quarter in
Marketing Sales & Services!

Kali Brosco

Mrs. Heather Suggitt,
Business, Management,
Marketing & Technology
teacher in
Accounting/Finance, has
selected

Kali Brosco
as Outstanding
Accounting/Finance student
of the 3rd quarter of the
2012-2013 school year.

Kali Brosco is a senior in her second
year of Accounting/Finance. She is
dedicated to excelling in all that she
does. This year she has worked very
hard as a Co-Treasurer of our
Business Professionals of America

(BPA) chapter and as a competitive member in both an individual contest and
as a leader of a team event. All of this is in addition to regular class work.

Kali always keeps a positive attitude and stays cool under pressure. She
demonstrates this every day with the pressures of the extra-curricular
activities she is involved in and with the responsibilities of leading the
Financial Analyst Team at the BPA State Leadership Conference. In addition to
the team, Kali also competed in Payroll Accounting which she placed fourth
and earned her way to National Leadership Conference in May 2013, held in
Orlando, Florida.

Congratulations Kali
On being the Outstanding Student of the Quarter in
Accounting/Finance!

Melinda Lujan

Mr. Abe Zain, Drafting & Design Technology teacher, has selected Melinda Lujan as Outstanding Drafting & Design Technology student of the 3rd quarter for the 2012-2013 school year.

Melinda has been a drafting student for the last two years. She has really stepped up her game to become one of our go to girls in class. Earlier this year she was asked to assist Mr. Herschell in machine shop with a few prints. She took on the job and completed it quickly and efficiently. She surprised me with her speed and quality of work. She remarked that she enjoyed the job and would rather do these types of jobs rather than book work. I began giving her more practical assignments and the rest is history. Melinda has become a shining star in the class room and has completed any and all work sent her way. She is developing into a great, young CAD student. Her work and smile are a welcome addition to our class. Congratulations on being the student of the third quarter in CAD Drafting.

Congratulations Melinda
On being the Outstanding Student of the Quarter in
Drafting & Design Technology!

Abigael Lucas

Mr. Abe Zain,
Work-based Learning
Coordinator, has
selected
Abigael Lucas
as the Outstanding
Work-based Learning
student of the 3rd
quarter for the 2012-
2013 school year.

Abigael has been an asset to the teacher cadet program for the 2012 - 2013 school year. She has been assigned to Lincoln Elementary school under the supervision of Mrs. Cheryl Sundstrom. Abigael is a great person who works hard, is very dependable, and always has a great smile. Mrs. Sundstrom says "Abigael is a wonderful cadet and truly enjoys the children and they all can sense that about her. Abigael always meets the needs of her students without being asked and is always very sweet to her kids in class. They really look forward to her help each day." For these reasons Abigael is a great human being and always does a great job. It has been a pleasure knowing Abigael Lucas for the last few years and she is more than deserving of my outstanding student of the quarter for the third nine weeks in our teacher cadet program.

Congratulations Abigael
On being the Outstanding Student of the Quarter in
Work-based Learning!

Zachary Jodoin

Mrs. Elena Lehocky, Allied Health Technology teacher, has selected Zachary Jodoin as the Outstanding Allied Health student of the 3rd quarter for the 2012-2013 school year.

Dependable, hard-working, knowledgeable, helpful and creative are words I would use to describe Zach.

His attendance is excellent. I can rely on Zach to be in class on a regular basis to complete whatever work needs to be done. When it comes to assignments, they are complete and handed in on time. He is one person I rarely have to chase for missing work!

Zach is always thinking about the course materials and asking interesting questions for the class to ponder. When he is finished with his work, he asks me for more work so that he can be ahead of the game and available to help with labs. As a Health Occupations Students of America (HOSA) member, he recently attended our regional leadership conference, where he competed in Medical Math, receiving the silver medal. Competing in HOSA demands extra time and preparation beyond the classroom.

When Zach works, he takes the time to comprehend the material and asks questions if he needs to. As a result, students know that when I am busy, they can go to Zach for help with classroom material. I have seen him working very well with students as he uses his unique sense of humor to make learning more fun!

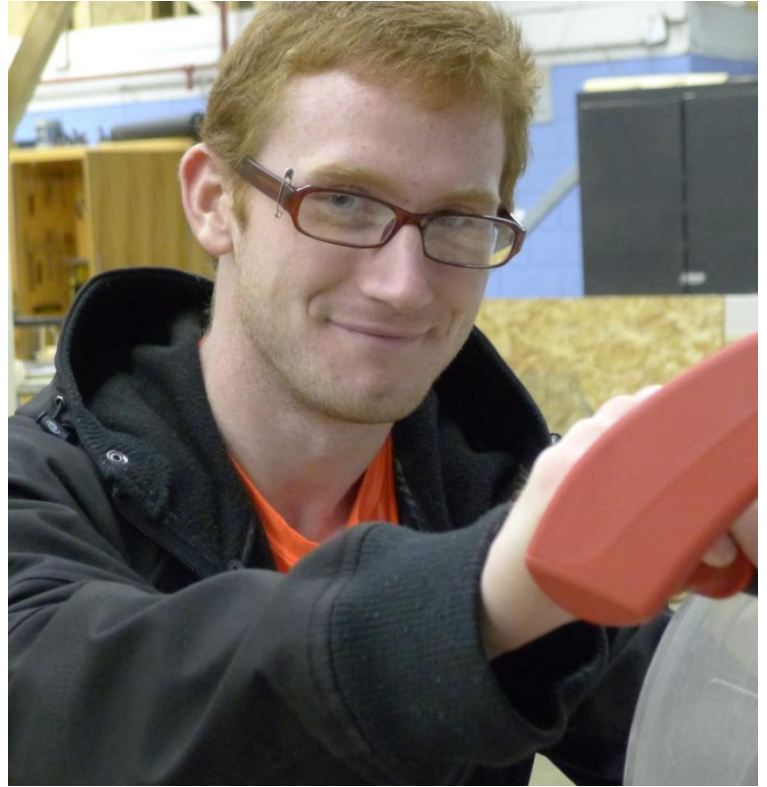

In the last few weeks, HOSA has been working on some fundraising projects in preparation for the Michigan State HOSA Leadership Conference in April. Many students struggle financially and cannot pay their way. Even though Zach is fully sponsored for states, he continues to help raise money for ALL students by soliciting donations and making items to sell. In addition to this, he recently worked at our Skating Show fundraiser this past weekend.

Zach has recently spent time in the operating room at War Memorial Hospital which has prompted him to explore a career as a Surgeon. With his excellent work-ethic and engaging personality, I have no doubt in my mind that he can achieve this.

Congratulations Zachary
On being the Outstanding Student of the Quarter in
Allied Health Technology!

David Coleiro

Mr. Wayne Fortin,
Construction
Technology teacher,
has selected
David Coleiro
as the Outstanding
Construction
Technology student
of the 3rd quarter
for the 2012-2013
school year.

David has exhibited outstanding traits as a young man. He takes the initiative in projects, pays attention to instructions and completes the tasks at hand. His foremost characteristic is his ability to work with others. This is understandable as he leads with a constant smile and follows with a pleasurable nature. These characteristics will carry David far in life and do well for others to emulate. It gives me great satisfaction to see David receive this recognition.

Congratulations David
On being the Outstanding Student of the Quarter in
Construction Technology

Richard Little

Mr. Greg Rambo
Welding/Brazing
Technology teacher has
selected
as the Outstanding
Welding/Brazing
Technology student of
the 3rd quarter for the
2012-2013 school year.

Richard is a student who can be counted on as the go to guy in welding. If there is a task at hand, he is the first to offer to do it. He is willing to take on any task, no matter the complexity, and complete to 100% satisfaction. He is hard working and dedicated. He has been called on to represent not only welding, but other Career Center Programs, as a spokesperson for the benefits of the programs and what he has gained by being a part of the program.

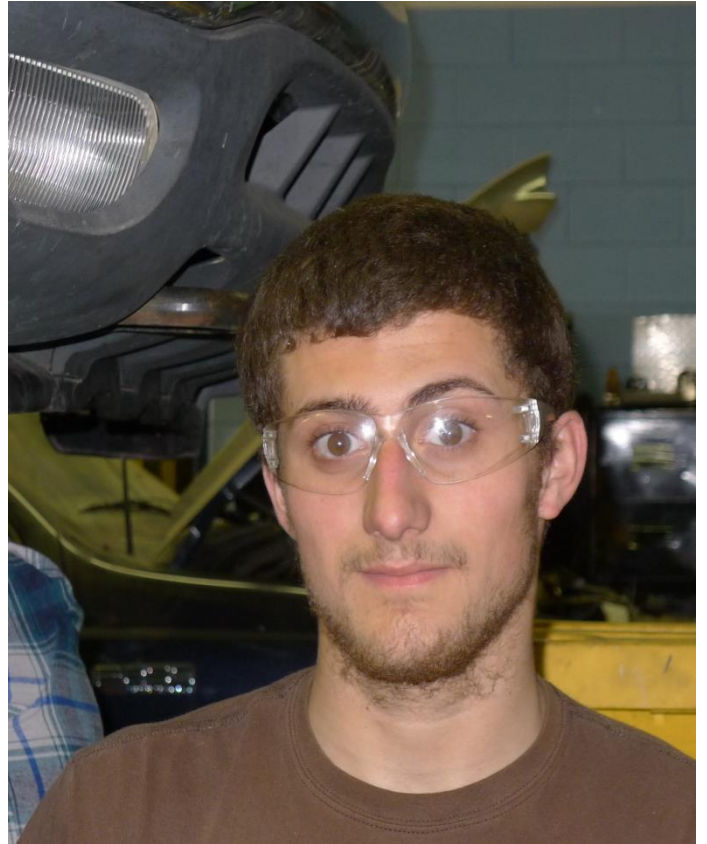

He has a great deal of skill and his work is thorough and complete. His strong work-ethic is evident in any project he is involved in. He is a leader among his peers and continues to excel in his areas of certification. And, he somehow manages to do it all with a smile on his face. He is an excellent asset to the Welding program, as well as to the Career Center as a whole. There is no doubt that Rich will go on to do great things in the career of his choice.

He is a great asset to our program and to our Career Center.

Congratulations Richard
On being the Outstanding Student of the Quarter in
Welding/Brazing Technology!

Shawn Young

Mr. Tim Strader,
Automotive
Technology teacher,
has selected as
Shawn Young
the Outstanding
Automotive
Technology
student of the 3rd
quarter for the
2012-2013
school year.

Shawn is a very hard worker. He is always looking for work to keep busy, often times helping other students on projects that they are working on. He never gives up and keeps with a project no matter how large or small. He is a fast learner, follows instruction well and retains what he has been taught. I have great fun with Shawn in class and we joke with each other often. He has a good sense of humor and helps keep the class light hearted.

Congratulations Shawn
On being the Outstanding Student of the Quarter in
Automotive Technology!

Julian Locke

Mr. Gary Herschell,
Machine Tool
Technology teacher,
has selected
Julian Locke as
the Outstanding
Machine Tool student
of the 3rd quarter for
the 2012-2013
school year.

Julian Locke has been in the Machine Tool Technology program for two years now. Julian is an excellent example of a student who has taken complete advantage of learning everything possible about his trade. On a daily basis Julian pushes himself to higher levels of thinking and is not afraid of taking on a challenge. Julian uses his skills to feed his love for building motors. He has been working vigorously to make precision parts that will be used on various projects of his. Although the projects are challenging, Julian never takes the easy way out, and always considers all options before coming for help. While maintaining a great work ethic in the classroom, Julian has worked very hard to become a valuable employee of Precision Edge. With any extra time available at work, Julian takes advantage of speaking to other employees to gain more knowledge about CNC programming. Due to all of his extracurricular work in Machining, Julian has the opportunity to compete in SKILLS USA States for CNC programming. Julian will be the first participant in this event from Sault Area Career Center. Julian has a lot opportunity ahead of him, and will do great things in the Precision Machining Field

Congratulations Julian
On being the Outstanding Student of the Quarter in
Machine Tool Technology!
