

SAULT STE. MARIE AREA PUBLIC SCHOOLS

Transportation & Maintenance Department

To: All Building Occupants, Employees, Parents and Guardians
From: Tom Nelson
Date: August 2020
Subject: Annual Asbestos Hazard Notification

This notice is to inform you that an Asbestos Management Plan has been completed and submitted to the State of Michigan for every school building where asbestos was found. A copy of the Asbestos Management Plan is available in each school building regarding location, condition, and a plan for monitoring and maintaining the asbestos-containing materials.

Once every six months, asbestos-containing materials must be visually inspected for changes in condition and the results documented in the Management Plan.

Law requires re-inspection of all district buildings every three years. The ongoing three-year inspections were completed July 1992, 1995, 1998, 2001, 2004, 2007, 2010, 2014, 2016, and 2018.

Periodic surveillance and regularly scheduled inspections permit the school district to immediately repair any damaged asbestos-containing materials and maintain a safe environment for all students and employees.

As a result of repairs and recent re-inspection, we believe all asbestos-containing materials in our school buildings are in safe condition for normal occupancy and do not constitute a health hazard to occupants.

If you have any questions, please do not hesitate to contact me at (906) 635-3825.

Thank you,

Tom Nelson
Maintenance Director
